

PowerSchool Parent Portal Login Instructions

Each parent must create an account to use PowerSchool. (This is a one-time process, once created, you'll never need to create an account again.) You will need your child's Access ID & and Access Password in order to create your new account. This can be obtained from the school's office. This feature of PowerSchool will allow each parent to have his/her own username and password. It will also allow parents of multiple children to combine accounts, and gives the ability for a parent to allow a grandparent, guardian, divorced parent, or other designee the ability to have access to the child's grades. The person just needs to have the original Access ID and password to create an account for the child. (Students do not setup accounts in PowerSchool. They will use the account that was created for them by the school office. Student accounts end in S.)
